BACKGROUND AND LEGISLATION

BACKGROUND

A key requirement of the *Education and Care Service National Law Act 210* is to ensure every reasonable precaution is taken to protect children being educated and cared for by the service from harm and from any hazard likely to cause injury (*National Law: Section 167*). The approved provider must also ensure that each Nominated Supervisor and each person in day-to-day charge of the service has successfully completed the child protection training required by the Department of Education (*National Law: Section 162A*).

Under the *Education and Care Services National Regulations 2011*, the approved provider of an education and care service must ensure that the nominated supervisors and staff members at the service who work with children are advised of:

- the existence and application of the current child protection law
- any obligations that they may have under that law (Regulation 84).

Under the *National Quality Standards*, management, educators and staff are required to be aware of their roles and responsibilities to identify and respond to every child at risk of abuse or neglect (*element 2.2.3*). At all times, reasonable precautions and adequate supervision must be provided to ensure children are protected from harm and hazard (*element 2.2.1*).

Approved providers operating under the *Children's Services Act 1996* must ensure that every reasonable precaution is taken to protect children being cared for or educated by the service from harm and from any hazard likely to cause injury (*section 107*).

The approved provider, persons with management control, nominated supervisor, persons in day-to-day charge, educators, staff, contractors, students and volunteers of early childhood services have legal and duty of care obligations to protect children under their supervision and care.

Duty of care obligations (*refer to Definitions*) require the approved provider, person with management or control, nominated supervisor, persons in day-to-day charge, and staff to take reasonable steps to protect children from injury that is reasonably foreseeable.

In addition, organisations have an organisational duty of care (*refer to Definitions*) to take reasonable precautions to prevent the abuse of a child by an individual associated with the organisation while the child is under its care, supervision or authority. The Victorian Reportable Conduct Scheme (*refer to Definitions*) seeks to improve organisations' responses to allegations of child abuse and neglect by

their workers and volunteers. The scheme is established by the [Child Wellbeing and Safety Act 2005 \(the Act\)](#) and relates to individuals associated with an organisation, including but not limited to committee members, employees, volunteers and contractors.

[The Children, Youth and Families Act 2005](#) provides the legislative basis for the provision of services to vulnerable children, young people and their families, and places children's best interests at the heart of decision-making and service delivery.

In line with the Victorian Government's Roadmap for Reform, Education State reforms and broader child safety initiatives, [Part 6A](#) of the [Child Wellbeing and Safety Act 2005](#) was proclaimed in September 2018. The Act established the Child Information Sharing (CIS) Scheme, which enables sharing of confidential information between prescribed information sharing entities ([refer to Definitions](#)) in a timely and effective manner in order to promote the wellbeing and safety of children. Alongside the CIS Scheme, the [Family Violence Protection Act 2008](#) includes the Family Violence Information Sharing (FVIS) Scheme and the Family Violence Multi-Agency Risk Assessment and Management Framework, which enables information to be shared between prescribed entities to assess and manage family violence risk to children and adults. It will allow professionals working with children to gain a complete view of the children they work with, making it easier to identify wellbeing or safety needs earlier, and to act on them sooner.

Any person who forms a reasonable belief ([refer to Definitions](#)), that a child is in need of protection may report their concerns to the Child Protection ([refer to Definitions](#)).

Early childhood teachers are required to be registered with the Victorian Institute of Teaching and are mandatory reporters ([refer to Definitions](#)). In addition, all educators with post-secondary qualifications in the care, education or minding of children and employed or engaged in an education and care service or a children's service and all proprietors, nominees of a children's service, approved providers, and nominated supervisors of an education and care service are mandatory reporters.

All mandatory reporters must make a report to Victoria Police and/or Child Protection ([refer to Definitions](#)) as soon as practicable if, during the course of their roles and responsibilities they form a reasonable belief that:

- A child is likely to suffer, or has suffered, significant harm as a result of physical abuse and/or sexual abuse, and
- The child's parents have not protected, or are unlikely protect, the child from harm of that type.

Victorian organisations that provide services to children are required under the [Child Wellbeing and Safety Act 2005](#) to ensure that they implement compulsory minimum [Child Safe Standards](#) to protect children from harm. The standards aim to drive continuous improvement in the way services prevent and report child abuse and respond to allegations of child abuse. Standard 2 requires services to have a child safety and wellbeing policy or statement of commitment to child safety and wellbeing.

Three criminal offences in the [Crimes Amendment \(Protection of Children\) Act 2014](#) protect children from child abuse:

- Failure to disclose: All adults (not just those working with children) have a legal duty to report information about child sexual abuse to Victoria Police. The offence applies to any adult who forms a reasonable belief that a sexual offence has been committed by an adult against a child under 16 and fails to report that information to the Victoria Police.
- Failure to protect: The offence applies to people within organisations who hold positions of authority within an education and care service, such as the approved provider, person with management or control, the nominated supervisor or the person in day to day charge and who know of the substantial risk that another adult associated with the organisation may commit a sex offence and they have the power or responsibility to remove or reduce the risk but negligently fail to do so.
- Grooming offence: The offence targets predatory conduct by an adult with the intent of committing child sexual abuse. Conduct may include communication, including online communication, with a child under the age of 16 or their parents.

Adopting the National Model Code is crucial for Early Childhood Education and Care (ECEC) services to ensure the safety and privacy of children. The National Model Code has been designed for voluntary adoption by ECEC services. Under the Code, only service-issued electronic devices should be used for taking photos or recording videos, thereby minimising the risk of unauthorised distribution of images. The Code states that clear guidelines are developed on carrying personal devices for specific essential purposes ensuring that any exceptions are justified and controlled. Additionally, implementing strict controls for storing and retaining images or recordings of children is vital to protect their privacy and prevent misuse of sensitive information. Adhering to these guidelines not only safeguards children but also fosters trust and transparency between ECEC services and families.

DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms e.g. Approved provider, Nominated supervisor, Notifiable complaints, Serious incidents, Duty of care, etc. refer to the Definitions file of the PolicyWorks catalogue.

Abuse: see Child abuse definition below.

Child abuse: (In the context of this policy) refers to an act or omission by an adult that endangers or impairs a child's physical and/or emotional health or development. Child abuse can be a single incident but often takes place over time. Abuse, neglect and maltreatment (*refer to Definitions*) are generic terms used to describe situations in which a child may need protection. Child abuse includes any and all of the following:

Physical abuse: When a child suffers or is likely to suffer significant harm from an injury inflicted by a parent/guardian, caregiver or other adult. The injury may be inflicted intentionally, or be the

consequence of physical punishment or the physically aggressive treatment of a child. Physical injury and significant harm to a child can also result from neglect by a parent/guardian, caregiver or other adult. The injury may take the form of bruises, cuts, burns or fractures, poisoning, internal injuries, shaking injuries or strangulation.

Sexual abuse: When a person uses power or authority over a child, or inducements such as money or special attention, to involve the child in sexual activity. It includes a wide range of sexual behaviour from inappropriate touching/fondling of a child or exposing a child to pornography, to having sex with a child and grooming with the intent of committing child sexual abuse.

Emotional and psychological abuse: When a child's parent or caregiver repeatedly rejects the child or uses threats to frighten the child. This may involve name calling, put downs or continual coldness from the parent or caregiver, to the extent that it significantly damages the child's physical, social, intellectual or emotional development.

Neglect: The failure to provide a child with the basic necessities of life, such as food, clothing, shelter, medical attention or supervision, to the extent that the child's health and development is, or is likely to be, significantly harmed.

Family violence: When children and young people witness or experience the chronic, repeated domination, coercion, intimidation and victimisation of one person by another through physical, sexual and/or emotional means within intimate relationships. Contrary to popular belief, witnessing episodes of violence between people they love can affect young children as much as if they were the victims of the violence. Children who witness regular acts of violence have greater emotional and behavioural problems than other children.

Racial, cultural, religious abuse: Conduct that demonstrates contempt, ridicule, hatred or negativity towards a child because of their race, culture or religion. It may be overt, such as direct racial vilification or discrimination, or covert, such as demonstrating a lack of cultural respect (attitude and values) and awareness (knowledge and understanding) or failing to provide positive images about another culture.

Bullying: Repeated verbal, physical, social or psychological behaviour that is harmful and involves the misuse of power by an individual or group towards one or more persons. Bullying occurs when one or more people deliberately and repeatedly upset or hurt another person, damage their property, reputation or social acceptance.

Child Information Sharing Scheme (CISS): enables Information Sharing Entities (ISE) (*refer to Definitions*) to share confidential information about any person to promote the wellbeing and/or safety of a child or group of children. The CISS works in conjunction with existing information sharing legislative provisions. All Victorian children from birth to 18 years of age are covered. Unborn children are only captured when there has been a report to Child First or Child Protection. Consent is not required from any person when sharing under CISS. The CISS does not affect reporting obligations created under other legislation, such as mandatory reporting obligations under the *Children, Youth and Families Act 2005*.

Child Safe Standards: Promotes the safety of children, prevent child abuse, and ensure organisations have effective processes in place to respond to and report all allegations of child abuse.

Child sexual exploitation: When a child is manipulated or coerced to participate in a sexual activity in exchange for, or the promise of, an incentive. This can include incentives such as food, accommodation, clothing, drugs, alcohol, cigarette or money. It can also include incentives such as love, affection, or safety. Child sexual exploitation is a distinct form of child sexual abuse because of this notion of exchange or reward.

Child sex offender: Someone who sexually abuses children, and who may or may not have prior convictions.

Child protection: The term used to describe the whole-of-community approach to the prevention of harm to children. It includes strategic action for early intervention, for the protection of those considered most vulnerable and for responses to all forms of abuse.

Child protection notification: A notification to the Child Protection Service by a person who believes that a child is in need of protection.

Child Protection Service (also referred to as Child Protection): The statutory child protection service provided by the Victorian Department of Families, Fairness and Housing to protect children and young people at risk of abuse and neglect. This service also works closely with Family Services (including Child FIRST) to support the assessment and engagement of vulnerable children and families in community-based services. Code of conduct: A set of rules or practices that establish a standard of behaviour to be followed by individuals and organisations. A code of conduct defines how individuals should behave towards each other and towards other organisations and individuals in the community (*refer to Code of Conduct Policy*).

Contractor: A person or company that undertakes a contract to provide materials or labour to perform a service or do a job. Examples include photographer, tradesperson, people contracted to provide an incursion.

Department of Families, Fairness and Housing (DFFH): The department is responsible for child protection, prevention of family violence, housing, disability, multicultural affairs, LGBTIQ+ equality, veterans, and the offices for Women and Youth.

Disclosure: (In the context of this policy) refers to a process by which a child conveys or attempts to convey that they are being or have been sexually abused, or by which an adult conveys or attempts to convey that they were sexually abused as a child. This may take many forms, and might be verbal or non-verbal. Nonverbal disclosures using painting or drawing, gesticulating, or through behavioural changes, are more common among young children and children with cognitive or communication impairments. Children, in particular, may also seek to disclose sexual abuse through emotional or behavioural cues, such as heightened anxiety, withdrawal or aggression.

Failure to Disclose: Failure to disclose is when an adult does not report information they have about child sexual abuse to the police. In Victoria, all adults have a legal obligation to report this information, not doing so is a criminal offence.

Failure to Protect: Failure to protect is when someone in a position of authority (such as a staff member or leader in an organisation) knows that a child is at risk of sexual abuse and has the power to reduce or remove that risk but does not take reasonable action.

Family Violence Information Sharing Scheme (FVISS): enables the sharing of relevant information between authorised organisations to assess or manage risk of family violence.

Grooming: Grooming is when an adult builds a relationship with a child, their family, or community to gain trust for the purpose of sexually abusing the child. It often involves manipulation, secrecy, and gradual boundary-breaking to make the child (and sometimes others) less likely to recognise or report the abuse.

Head of organisation: The heads of organisations under the Reportable Conduct Scheme are required to have systems in place to prevent reportable conduct within their organisation, and systems to enable staff to make reportable allegations. The head of organisation has the powers of the employer. A CEO or Principle Officer is a head of organisation. For stand-alone kindergartens, the head of organisation will usually be the president or another office bearer who consents to the nomination.

Information Sharing Entities (ISE): are authorised to share and request relevant information under the Child Information Sharing Scheme and the Family Violence Information Sharing Scheme (the Schemes) and required to respond to requests from other ISE's. All ISE's are mandated to respond to all requests for information.

Maltreatment: (In the context of this policy) refers to physical and/or emotional mistreatment, and/or lack of care of the child. Examples include sexual abuse, the witnessing of family violence and any non-accidental injury to a child.

Mandatory reporting: The legal obligation of certain professionals and community members to report when they believe, on reasonable grounds, that a child is in need of protection from harm. A broad range of professional groups are identified in the Children, Youth and Families Act 2005 as 'mandatory reporters', including:

- all educators with post-secondary qualifications in the care, education or minding of children and employed or engaged in an education and care service or a children's service
- all proprietors, nominees of a children's service, approved providers, and nominated supervisors of an education and care service.
- educators registered with the Victorian Institute of Teaching (VIT).
- Mandated staff members must make a report to Victoria Police and/or Child Protection as soon as is practicable if, during the course of acting out their professional roles and responsibilities, they form a belief on reasonable grounds (refer to Definitions) that:
 - a child has suffered, or is likely to suffer, significant harm as a result of physical and/or sexual abuse (refer to Definitions) and
 - the child's parents/guardians have not protected, or are unlikely to protect, the child from harm of that type.

Mandatory reporters must also follow processes for responding to incidents, disclosures or suspicions of child abuse to fulfil all their legal obligations (*refer to Attachment 3: Processes for responding to incidents, disclosure and suspicions of child abuse*).

Neglect: see Child abuse definition above.

Negligence: Doing, or failing to do something that a reasonable person would, or would not do in a certain situation, and which causes another person damage, injury or loss as a result

Organisational duty of care: The statutory duty organisations have to take reasonable precautions to prevent sexual and/or physical abuse of a child.

Orange Door: A free service for adults, children and young people who are experiencing or have experienced family violence and families who need extra support with the care of children

Offender: A person who mistreats and/or harms a child or young person.

Perpetrator: A person who mistreats and/or harms a child or young person.

Reasonable belief/reasonable grounds: A person may form a belief on reasonable grounds that a child or young person is in need of protection after becoming aware that the child or young person's safety, health or wellbeing is at risk and the child's parents/guardians are unwilling or unable to protect them. There may be reasonable grounds for forming such a belief if:

- a child or young person states that they have been physically or sexually abused
- a child or young person states that they know someone who has been physically or sexually abused (sometimes the child may be referring to themselves)
- someone who knows the child or young person states that the child or young person has been physically or sexually abused
- a child shows signs of being physically or sexually abused
- the person is aware of persistent family violence or parental substance misuse, psychiatric illness or intellectual disability or other factors that are impacting on the child or young person's safety, stability or development
- the person observes signs or indicators of abuse, including non-accidental or unexplained injury, persistent neglect, poor care or lack of appropriate supervision
- a child's/young person's actions or behaviour may place them at risk of significant harm and the parents/guardians are unwilling or unable to protect the child.

Reportable allegation: any allegation that an employee (including agency/relief staff or contractor provided by a labour hire agency), volunteer or student has committed child abuse (*refer to Definitions*)

Reportable Conduct Scheme: aims to improve oversight of how organisations respond to allegations of child abuse and child-related misconduct by their workers (including agency/relief staff or contractor provided by a labour hire agency), and volunteers. There are five types of 'reportable conduct':

- sexual offences committed against, with or in the presence of a child
- sexual misconduct committed against, with or in the presence of a child

- physical violence against, with or in the presence of a child
- any behaviour that causes significant emotional or psychological harm to a child
- significant neglect of a child.

Working with Children (WWC) Check: is a legal requirement under the Worker Screening Act 2020 for those undertaking paid or voluntary child-related work in Victoria.

Working with Children Clearance: A WWC Clearance is granted to a person under working with children legislation if:

- they have been assessed as suitable to work with children
- there has been no information that, if the person worked with children, they would pose a risk to those children
- they are not prohibited from attempting to obtain, undertake or remain in child-related employment.

PROCESSES FOR RESPONDING TO INCIDENTS, DISCLOSURE AND SUSPICIONS OF CHILD ABUSE

Use ELAA's easy-to-use, comprehensive [Child Safe Reporting Guide](#) alongside this policy for clear steps on child safety reporting

OVERVIEW

- The approved provider or staff, including those with mandatory reporting responsibilities (*refer to Definitions*) must act when they form a reasonable belief or have a suspicion that a child has been, or is at risk of being abused. Regardless of the suspected cause, all concerns about the wellbeing of a child (or an unborn child) should be taken seriously and acted upon. This includes concerns about the wellbeing of a child, which does not appear to be the result of abuse
- Staff must seek advice from the approved provider or person with management or control, DFFH Child Protection, Child First and/or Victoria Police if they are uncertain about whether they have sufficient grounds to form a reasonable belief.
- If staff hold a reasonable belief that a child has been or is at risk of being abused, regardless of the advice of the Approved Provider or Person with Management or Control, or any other staff member, they must still make a report to Child Protection and/or Victoria Police.
- The steps outlined in the Department of Education's flowchart: Four critical actions for early childhood services: Responding to Incidents, Disclosures and Suspicions of Child Abuse, provides a summary of the critical actions which are to be followed: www.education.vic.gov.au
- Records are kept about all child safety concerns or complaints. These records contain comprehensive descriptions of incidents/ issues of concern and provide evidence for actions taken, including reports made to statutory authorities or professional bodies and follow-up actions to be completed. The records are stored in accordance with the service's *Privacy and Confidentiality Policy*.
- Privacy is maintained, and information is disclosed when it promotes the safety or wellbeing of a child.
- Permission is not required from parents/guardians of a child to make a report where abuse is suspected.

RESPONDING TO CONCERNS ABOUT THE WELLBEING OF A CHILD

When to report wellbeing concerns to Child FIRST (Family Information, Referral and Support Team)/Orange Door
A referral to Child FIRST or Orange Door (*refer to Definitions*) should be made if the approved provider/staff member has significant concerns for a child's wellbeing and the child is not in immediate need of protection. This may include circumstances when there are:

- significant concern for a child's wellbeing
- parents who lack the skills to support their child's physical, emotional and cognitive development that may be affecting the child's development
- family conflict, including family breakdown
- families under pressure, due to a family member's physical or mental illness, substance misuse, disability or bereavement
- young, isolated and/or unsupported families
- families experiencing significant social or economic disadvantage that may adversely impact on a child's care or development.

WHEN TO MAKE A REFERRAL TO ORANGE DOOR

Orange Door is a free service for women, children and young people who are experiencing family violence, or families who need assistance with the care and wellbeing of children to access the services they need to be safe and supported. Both services ensure that vulnerable children, young people and their families are linked effectively into relevant services, and this may be the best way to connect children, young people and their families with the services they need.

WHEN TO REPORT WELLBEING CONCERNS TO VICTORIA POLICE

In addition to reporting suspected abuse to appropriate authorities, you must contact Victoria Police on 000 if the:

- child's immediate safety is compromised
- child is partaking in any risk taking activity that is illegal and extreme in nature or poses a high risk to their safety, or the safety of somebody else.

WHEN TO REPORT WELLBEING CONCERNS TO DFFH CHILD PROTECTION

In addition to reporting suspected abuse to appropriate authorities, you should contact DFFH Child Protection if you have significant protective concerns for the wellbeing of a child, but the parents are unable or unwilling to address or resolve these concerns.

This includes all concerns that:

- have a serious impact on a child's safety, stability or development (including abandonment, death or incapacity, extreme risk-taking behaviour, or harm to an unborn child)
- are persistent and entrenched and likely to have a serious impact on a child's safety, stability or development
- relate to a parent/s who cannot or will not protect the child from significant harm
- include a belief that the family is likely to be uncooperative in seeking assistance.

RESPONDING TO CONCERNS ABOUT SEXUAL BEHAVIOURS

Approved providers, early childhood teachers and educators play an important role in making informed professional judgements regarding sexualised behaviour involving children.

Not all sexual behaviour involving children poses a risk to their safety. It may be [age-appropriate and expected sexualised behaviour](#).

Informed judgements regarding sexualised behaviour help to ensure the health, safety and wellbeing of children by:

- supporting healthy sexual development (age-appropriate sexualised behaviour)
- protecting them from harm or abuse (inappropriate or problem sexualised behaviour).

In some cases, [problematic sexualised behaviour](#) involving children may fall within reporting requirements.

If you have formed a reasonable belief that the child is displaying problematic sexualised behaviour, you must take reasonable steps to protect them by following the **Four Critical Action** listed below

MANAGING A DISCLOSURE

It is very important to validate a child's disclosure, by listening to the child, taking them seriously and responding and acting on the disclosure by implementing the Greenbrook Kindergarten's reporting procedures.

Strategies include:

- let the child talk about their concerns in their own time and in their own words
- give them your full attention, the time and a quiet space in which to do this and be a supportive and reassuring listener
- remain calm and use a neutral non-judgmental tone
- comfort the child if they are distressed
- record the child's disclosure using the child's words.
- tell the child that telling you is the right thing to do and that what has happened is not their fault
- let them know that you will act on this information and that you will need to let other people know so that they can help the child
- it is the role of DFFH Child Protection and Victoria Police to investigate. DO NOT taking any steps to investigate. Avoid asking investigative or invasive questions which may cause the child to withdraw and may interfere with an investigation. Avoid going over information repeatedly.

RESPONDING TO INCIDENTS, DISCLOSURE AND SUSPICIONS OF CHILD ABUSE

To make a report to child protection a staff member needs to have formed a reasonable belief (*refer to Definition*) that a child has suffered or is likely to suffer significant harm as a result of abuse or neglect, and that their parent has not protected or is unlikely to protect the child from harm of that type.

It is strongly recommended that ALL early childhood service staff follow the **Four Critical Actions** as soon as they witness an incident, disclosure or form a reasonable belief that a child has or is at risk of being abused.

FOUR CRITICAL ACTIONS

ACTION 1: RESPONDING TO AN EMERGENCY

If a child has just been abused or is at immediate risk of harm you must take reasonable steps to protect them.

These include:

- separating the alleged victim and others involved, ensuring all parties are supervised by a service staff member

- arranging and providing urgent medical assistance where necessary by:
 - administering first aid assistance
 - calling 000 for an ambulance and following any instructions from emergency service officers/paramedics
 - calling 000 for urgent police assistance if the person who is alleged to have engaged in the abuse poses an immediate risk to the health and safety of any person
- you should also identify a contact person at the service for future liaison with police
- taking reasonable steps to preserve evidence, such as the environment, clothing, other items, and potential witnesses until the police or other relevant authorities arrive on the premises.

ACTION 2: REPORTING TO AUTHORITIES

As soon as immediate health and safety concerns are addressed you must report all incidents, suspicions and disclosures of child abuse as soon as possible. Failure to report physical and sexual child abuse may amount to a criminal offence.

IF THE SOURCE OF SUSPECTED ABUSE IS FROM WITHIN THE FAMILY OR COMMUNITY:

DFFH CHILD PROTECTION

You must report to DFFH Child Protection if a child is considered to be:

- in need of protection from child abuse
- at risk of being harmed (or has been harmed) and the harm has had, or is likely to have, a serious impact on the child's safety, stability or development.

VICTORIA POLICE

You must also report all instances of suspected sexual abuse (including grooming) to Victoria Police.

REPORT TO MANAGEMENT

You must report to your approved provider.

NOTIFY THE REGULATOR

The Approved Provider early childhood services must notify the Quality Assessment and Regulation Division within **24 hours** of the incident or the time the person becomes aware of the incident of any serious incidents, circumstances, or complaints which raise concerns about the safety, health and wellbeing of a child being educated and cared for by a service. Notifications may be made at National Quality Agenda IT System: <https://www.acecqa.gov.au>

If you believe that a child is not subject to abuse, but you still hold significant concerns for their wellbeing you must still act. This may include making a referral or seeking advice from Child FIRST (in circumstances where the family are open to receiving support), or to DFFH Child PROTECTION or Victoria Police.

IF THE SOURCE OF SUSPECTED ABUSE IS FROM WITHIN THE SERVICE:

If the source of suspected abuse comes from within the service (this includes any forms of suspected child abuse involving a staff member, contractor, committee member or volunteer):

- you must contact Victoria Police via your local police station (where appropriate they will refer you on to the local Sexual Offences and Child Abuse Investigation Team)
- you must make a report to DFFH Child Protection if you're a mandatory reporter.
- you must also report internally to the approved provider or person with management or control
- the approved provider must also notify the Quality Assessment and Regulation Division within 24 hours of the incident or the time the person becomes aware of the incident. Notifications made via the National Quality Agenda IT System: <https://www.acecqa.gov.au>
- the approved provider must notify the Commission for Children and Young People (CCYP) of within **three business days** of becoming aware of an allegation (*refer to Reportable Conduct Scheme*)
- a contact person must also be identified at the service for future liaison with Child Protection and Victoria Police and seek advice about contacting parents/carers.

ACTION 3: CONTACTING PARENTS/CARERS

You must consult with Victoria Police or DFFH Child Protection to determine what information can be shared with parents/carers. They may advise:

You will be advised not to contact the parents in circumstances where:

- the parents are alleged to have engaged in the abuse

- a disclosure to the parent/carer may subject the child to further abuse
- the notification is likely to adversely affect the investigation of the incident by the relevant authorities.

Where advised to be appropriate, your service should make sensitive and professional contact with parents as soon as possible on the day of the incident, disclosure or suspicion.

In many cases where it is suspected that a child has been, or is at risk of being abused, it is extremely important that parents/carers are notified as soon as practicable. This enables parents/carers to take steps to:

- prevent or limit their child's exposure to further abuse.
- ensure that their child receives the support that they require.

It's also a requirement under the National Quality Framework that parents be contacted within 24 hours, if the suspected abuse occurs whilst a child is at an education or care service.

However, there are some circumstances where contacting parents/carers may place a child at greater risk

ACTION 4: PROVIDING ONGOING SUPPORT

Your service should take reasonable steps to make a child feel safe and supported whilst they are attending your service.

Where appropriate, consider:

- establishing regular communication with the child's parent/carer to plan support strategies and discuss a child's progress, and the success of any support strategies
- engage allied health professionals with expertise in addressing child abuse and trauma to support the service to design and implement support strategies
- establish a safety plan, in instances where the abuse has been led by a person within the service, and/or visiting the service to mitigate risk of further abuse.

THE REPORTABLE CONDUCT SCHEME

The Approved Provider must notify the Commission for Children and Young People (The Commission) of a reportable allegation (*refer to Definitions*) within **three** business days of becoming aware of an allegation. The Approved Provider must provide certain detailed information about the allegation and their proposed response within **30 calendar days**.

The

Three business day notification	30 calendar day update	Advice on investigation	Outcomes of investigation	Additional documents
• Name of the worker or volunteer • Date of birth • Police report • Organisation contact details • Head of organisation's name • Initial advice on the nature of the allegation	• Details of the allegation • Details of your response to the allegation • Details about any disciplinary or other action proposed • Any written response from the worker or volunteer about the allegation and the proposed disciplinary or other	• Name of investigator • Contact details • As soon as practicable	• Copy of findings and reasons for the findings • Details about any disciplinary or other action proposed • Reasons for taking or not taking action • As soon as practicable	• The Commission may request further documents from the head of the organisation

CHILD PROTECTION IN EARLY CHILDHOOD: PRIVACY AND INFORMATION SHARING

The Child Information Sharing Scheme, and the Family Violence Information Sharing Scheme allow professionals working with children to gain a complete view of the children they work with, making it easier to identify wellbeing or safety needs earlier, and to act on them sooner.

Following a report to DFFH Child Protection, Victoria Police and/or ChildFIRST you should:

- consult with your approved provider before disclosing information about the report and the child and their family to another information sharing entity (except to verified Victoria Police and DFFH Child Protection workers in very urgent situations and/or if the information is required to protect the safety of that child) and/or
- seek consent from a child or their parents/carers before disclosing information about the report and the child and their family to anyone other than authorities and service staff members (provided this does not place the child or another person at risk).

PRIVACY LAWS ALLOW FOR STAFF TO SHARE A CHILD'S PERSONAL AND HEALTH INFORMATION TO ENABLE THE SERVICES TO:

- provide and support the education of the child, plan for individual needs and address any barriers to learning
- support the social and emotional wellbeing and health of the child
- fulfil duty of care obligations to the child, other children, staff and visitors
- make reasonable adjustments if the child has a disability, including a medical condition or mental illness
- provide a safe and secure workplace.

ATTACHMENT 4: DOCUMENTING RESPONSE TO SUSPECTED CHILD ABUSE: TEMPLATE FOR ALL VICTORIAN EARLY CHILDHOOD SERVICES

This template has been adapted from the Department of Education; Responding to Suspected Child abuse: Template for all Victorian Early Childhood Services

Under the National Quality Framework, the approved provider of an education and care service must ensure that an incident, injury, trauma and illness record is kept ([Regulation 87](#)). This template aligns with this requirement and it is strongly recommended that all early childhood service staff utilise this template for incidents, disclosures and suspicions of child abuse.

Completing this template should not impact on reporting times. If a child is in immediate danger staff should immediately contact Victoria Police on 000.

When completing this template, the aim should be to provide as much factual information as possible. This information will be critical and may be sought at a later date if the matter is the subject of Court proceedings.

ATTACHMENT 7: THE NATIONAL MODEL CODE INFORMATION

The Model Code & Personal Device Restrictions at Greenbrook Kindergarten Expectations, Practices and Approaches

National Model Code

Greenbrook Kindergarten adopted the National Model Code on the 3rd September 2024. In doing so, we are taking steps towards enhancing a child safe environment around the use of personal devices. This will help manage risks to child safety that continue to evolve alongside technology advancements. It also supports educators to adopt child safe practices when taking, sharing and storing images of children.

Images & videos used for children's documentation

At times our educators and teachers may intentionally take or record images or videos of children within the program and place them on children's Story Park profiles. This can be an effective way to document and communicate with families and carers about their child's learning, and their participation in experiences.

Without a clear purpose, recording and sharing images and videos through overly frequent updates can take the place of providing more meaningful information to families and carers. This can also impact educators' and teacher's abilities to effectively supervise, interact and engage with children in their learning. Each term families will be provided with some photograph or video content relating to their child's learning, but please note this will not be a daily occurrence.

In Compliance with the National Model Code Greenbrook Kindergarten will ensure that:

- only service-issued electronic devices are used when taking images or videos of children
- personal electronic devices that can take images or videos, and personal storage and file transfer media, **(see list below)** are not in the possession of any person while providing education and care and working with children, **except for limited essential purposes (see below)**
- strict controls in place for the appropriate storage and retention of images and videos of children
- service policies and procedures required under regulation 168 of the Education and Care Services National Regulations (National Regulations) and regulation 112 of the Children's Services Regulations must be updated so they align with the National Model Code

Restricted Personal Electronic Devices

The restricted devices under the National Model Code are:

- personal devices that can take images or videos and
- personal storage and file transfer media.

For example:

- phones
- tablets
- digital cameras
- smart watches with camera/recording functionality
- wearables, such as camera glasses
- SD cards
- USB drive
- hard drives.

Who the restrictions apply to

These restrictions apply to any person who is providing education and care and working directly with children, including:

- teachers and educators, including casual and agency staff
- students attending the service as part of a practicum and representatives of tertiary providers who attend the service to assess students
- volunteers, including parent volunteers
- any third parties delivering programs or incursion activities to children in a service, whether paid or unpaid
- allied health and inclusion professionals attending a service to observe, assess or work with a child at the service(see note below for exceptions)
- mentors or coaches attending the service to support teachers or educators working with children or providing education and care
- preschool field officers
- primary school teachers attending a service as part of a school transition program.

Allied Health & Inclusion Professionals

If a third-party professional attending a service and working directly with children (such as an allied health or inclusion professional) needs to use a device (for example, to undertake an assessment or take notes) they can use a device that is:

- issued by their business or institution; and

- used only for work purposes (and not personal use).

Facilitating the use of service issued devices

We may at times be able to consider facilitating the use of a service-issued device where

- a student attending the service as part of a practicum; or
- a visiting allied health or inclusion professional needs to take images or videos but has no business or institution-issued device.

Exceptions to the restrictions

The National Model Code lists the following **essential purposes** for which the use or possession of a personal devices may be authorised where access does not impede the active supervision of children:

- **communication in an emergency situation to ensure safety**
 - involving a lost child, injury to child or staff member, or other serious incident
 - in the case of a lockdown or evacuation of the service premises
- **personal health requirements**
 - for example, heart or blood sugar level monitoring
- **disability**
 - for example, where a personal electronic device is an essential means of communication for an educator or other staff member
- **family necessity**
 - for example, an early childhood staff member with an ill family member
- **technology failure**
 - for example, when a temporary outage of service-issued electronic devices has occurred
- during a local emergency event to receive emergency notifications. This could include government warning systems such as a bushfire evacuation text notification.

Documentation required for essential purposes authorisations

All authorisations must be documented by the approved provider:

- Authorisations must be made in writing in advance where possible.
- Approved providers must create and maintain suitable logs or registers for recording:
 - authorisations made in writing in advance, and

- retrospectively, authorisations made through another means where written authorisation is not possible (for example, in an emergency situation).
- The logs or registers should be stored securely. All documentation should be available at the service for authorised officers to inspect.

Who the restrictions do not apply to

The restrictions do not apply to people who are not providing education and care and not working directly with children.

This includes:

- parents and carers attending the service to drop off or pick up their child
- Victorian Regulatory Authority Authorised Officers
- police
- officers of other regulators, such as environmental health officers
- third parties who are attending the service but are not working with children or providing education or care (for example, maintenance contractors).

Broader child safe policies and procedures and supervision requirements continue to apply in these examples.

When Personal Devices Can be used

Personal devices can be accessible to teachers, educators and other staff when they are not providing education and care or working directly with children.

Examples could include:

- while taking a scheduled break from work, such as a lunch or tea break
- during planning time
- during administrative activities.

Greenbrook Committee of Management ask that families dropping off / picking up children:

- Do not take photos or videos of children other than your own child, unless permission from the child/ren's parents is given
- Refrain from entering the bathroom area if you can see that a child is being changed / having their nappy changed. In this instance they must speak with a staff member to assist their child if they need to enter the bathroom / bag area.

Induction Procedures:

- Induction with the nominated Supervisor / Child Safety Officer must be completed. (Refer to induction checklists)
- Readings and training have been completed as per the Child Safe Standards Training Register

Devices that staff use for taking, sending and storing images are:

- distinctly branded with an identification code
- are password protected
- are stored securely / locked away when not being used

Storing of images:

Images and Videos are stored on the computers, ICLOUD, Onedrive and Story Park Profiles. They are all password protected and retained for a period of 12 months before being deleted, with the exception of photographs and videos on Story Park Profiles which are deleted when the child leaves the service (up to 3 years)
